Have you tried our online program **CalAgPermits** to enter your Pesticide Use Reports? CalAgPermits saves time and is easy to use! Tutorials are also available to help you learn how to use CalAgPermits. Visit our website <http://www.sdcountry.ca.gov/awm/envreg.html> or contact your inspector for more information and get started.

There are new **surface water regulations** you must comply with when applying 17 pyrethroid pesticides outdoors at structural, residential, industrial and institutional sites. Visit our website <http://www.sdcountry.ca.gov/awm/pesticides.html> or contact your inspector to learn more about these regulations.

You play an important role in **bee protection**. If you apply pesticides which say “**toxic to bees**” on the label, we strongly encourage you to visit our website <http://www.sdcountry.ca.gov/awm/pesticides.html> or call your inspector to learn more about your role and responsibilities in bee protection.

We are currently simplifying our **Restricted Materials Permit** processing, preparing, and conditioning. Even though you may have an active permit, you may be contacted so that your permit can be reissued in the coming months. Contact your inspector with any questions.
